

## **JHA Payment Processing Solutions Adds 20 New Credit Union Clients in 2011 Fiscal Year**

### **New and existing clients supported with the technology and expertise to increase efficiency and optimize growth opportunities**

Monett, MO. - October 11, 2011 - Jack Henry & Associates, Inc. (NASDAQ: JKHY), a leading provider of technology solutions and payment processing services primarily for the financial services industry, today announced that its JHA Payment Processing Solutions® (PPS) division added 20 credit unions to its client roster during fiscal year 2011. Nineteen of these credit unions elected to replace a competitive ATM, debit, and credit card processing solution with a PPS solution and one launched a new card program.

Tobyhanna Federal Credit Union, a \$156 million, Pennsylvania-based institution is one of the credit unions converting to the PPS platform. According to Travis Frey, vice president of IT, Support, and Lending, "We wanted something in-house, live, and in real-time that did not require updates on more than one database. We looked at PPS and were immediately taken with its level of customer service. We no longer need to rely on a third-party for reporting. Since everything is now 'just a loan' and 'just a card,' we are able to create on-demand programs as well as customer reports to automate and create efficiencies across the board. From accounting to the front line, in-house credit cards with PPS was the right decision for us."

According to Carey Simon, accounting card specialist at Azalea City Credit Union, an \$18.6 million, Alabama-based institution, "We were very comfortable with the pricing. We spoke with many other credit unions and they said they were very happy with PPS services. It's good to know about that reputation as we enter into a business relationship."

John Postle, general manager of PPS, said, "More and more institutions are realizing that if they're using in-house card processing, they'll get the best customer service possible from us. All companies talk about customer service but for PPS it's more than talk - it's the central focus of everything we do. We also have the technology and expertise to offer efficiency and growth opportunities. For example, PPS provides an easy-to-use processing interface, highly effective loyalty and fraud management programs, and an expert chargeback team. This combination of technology and service is hard to beat. Credit union members are the real winners."

#### **About Tobyhanna Federal Credit Union**
