

The Golden 1 Credit Union Selects ATM Channel Management Solution Provided by Jack Henry Subsidiary

e-ClassicSystems(R) to Provide Fourth Largest Credit Union with the Ability to Manage its Network of 270 ATMs in an Automated, Centralized Environment

MONETT, Mo., June 28, 2005 /PRNewswire-FirstCall via COMTEX/ -- Jack Henry & Associates, Inc. (Nasdaq: JKHY), a leading provider of integrated computer systems and ATM/debit card/ACH transaction processing, today announced that The Golden 1 Credit Union will implement the ATM channel management solution developed by its e-ClassicSystems subsidiary. e-ClassicSystems' ATM Manager Pro(R) solution will enable California's largest financial cooperative and the fourth largest credit union in the United States to effectively manage its network of 270 ATMs in an automated, centralized environment.

ATM Manager Pro supports every aspect of ATM channel management by consolidating ATM-related information into a centralized database, and providing the analytical and reporting tools required to continually evaluate network performance and improve channel strategies.

The Golden 1 will initially implement three of the four ATM Manager Pro modules. According to Ric Dannelley, senior vice president - operations of The Golden 1, "We chose ATM Manager Pro for several strategic reasons. The Asset and Site Management module, which consolidates and manages asset, terminal location and transaction information, will help us to clearly understand usage patterns, track compliance with ATM regulations and consolidate duplicated location data. The Financial Analysis module will manage the income and expense items associated with each of our ATMs, and generate detailed and accurate financial statements for each ATM. The Event Management module allows us to more effectively manage projects and activities associated with our ATM program. For example, special projects like the temporary placement of ATMs at the California State Fair will be managed using the events module. We believe ATM Manager Pro will enable us to more efficiently manage our ATM program for our members."

Kevin Williams, CFO of Jack Henry & Associates, said, "The evolution of ATMs from customer and member service tools to a recognized business channel creates the need for a centralized ATM channel management solution. ATM Manager Pro provides diverse financial institutions with specific opportunities to reduce operating costs, and improve operational efficiency and controls across multiple business units and functions. ATM Manager Pro is currently providing many of the largest ATM deployers with unprecedented automation, centralized information, and extensive analytical and reporting tools."

According to Jack Prim, CEO of Jack Henry & Associates, "e-ClassicSystems is another example of a Jack Henry acquisition that expanded our product and service offering with a best-of-breed solution that can be sold both inside and outside our core client base, and to financial institutions regardless of size and charter. We are excited about the target markets for these recently acquired solutions which include thousands of financial services organizations for which Jack Henry previously had no appropriate offering."

About The Golden 1 Credit Union

The Golden 1 Credit Union is California's largest financial cooperative, and the fourth largest credit union in the United States with over \$5.6 billion in assets and more than 600,000 members. It has 69 offices, more than 270 ATMs, and more than 2,500 cooperative ATMs statewide. Founded by a group of California state employees in 1933, The Golden 1 Credit Union is a membership financial cooperative, which is owned by its members. In keeping with the credit union philosophy of "people helping people," The Golden 1 offers members a wide range of low-cost consumer financial products and high-quality service. The Golden 1 consistently receives a superior rating by IDC Financial Publishing, Inc., and a five-star rating from Bauer Financial Reports, Inc. As a full-service credit union, The Golden 1 offers all the consumer financial products and latest delivery innovations expected from a large financial institution. Its priority is to provide low-fee or no-fee services with higher yields on savings and lower rates on loans. Member deposits are insured up to \$100,000 by the National Credit Union Administration (NCUA), a U.S. government agency.

About e-ClassicSystems

e-Classic Systems, Inc., a wholly owned subsidiary of Jack Henry & Associates, Inc. (Nasdaq: JKHY), provides a suite of integrated software systems that enable banks, credit unions, and independent sales organizations (ISOs) to proactively manage their ATM networks in a fully automated, centralized environment. This first-of-its-kind solution, which is used by many

of the largest ATM fleet owners worldwide, supports every aspect of ATM channel management including asset and site management, financial analysis, cash management, and event management. ATM Manager Pro is a modular system that consolidates all ATM-related information into a centralized database, and provides the innovative analytical tools required to continually evaluate network performance and improve channel strategies. The easy-to-use system also identifies specific opportunities to increase revenue, reduce operating costs, and improve operational efficiency and controls.
