## **ProfitStars Introduces iPay OneClick Consumer Online Bill Pay and Andiamo, a Fast, Cost Effective Way to Deploy Mobile Services Without Core Integration**

**- Online and mobile technologies provide financial institutions with branded e-channel services that meet consumer needs in a simple, smart, and seamless manner -**

MONETT, Mo., July 24, 2013 /PRNewswire/ -- Jack Henry & Associates Inc. (NASDAQ: JKHY) is a leading provider of technology solutions and payment processing services primarily for the financial services industry. Its [ProfitStars®](#) division today introduced iPay OneClick™ and Andiamo™ from [iPay Solutions™](#)

iPay OneClick is the new generation of iPay Solutions' Consumer Online Bill Pay™ that supports single or recurring payments and easily integrates with any Internet banking provider. After a substantial R&D investment and careful analysis of feedback from customers, iPay added more than 50 modifications and enhancements to its existing e-payment features. The changes are focused on creating a better user experience for both consumers and financial institutions. Most notably, the more streamlined and intuitive user experience positions its most desirable content with one click of a mouse. The customer enrollment process has been simplified and condensed to encourage increased adoption. And, settings for payments, alerts and notifications have been adjusted to further prevent user error.

Andiamo (pronounced ahn-de-YAH-mow) is an up-to-the-minute financial aggregation app that enables financial institutions of all sizes to offer the latest innovative solutions in mobile banking without core integration. The name, Italian for "let's go," highlights two main attributes of the solution: first, its ability to give any financial institution a mobile app in a fast and easy manner, regardless of previous vendor and cost barriers; and secondly, the financial decision support that the solution provides to consumers making on-the-go choices.

Andiamo provides financial institutions with comprehensive mobile services. The white-labeled solution enables consumers to aggregate all of their balance and transactional data from multiple financial institutions into a single, up-to-the minute view. Customers and members will have instant access to the most demanded mobile services, including balance inquiries, transaction listings, notifications, and even branch/ATM location searches. Together with iPay OneClick, Andiamo fulfills the purchase cycle with enhanced features such as bill pay, account-to-account funds transfers. ProfitStars' Remote Deposit Anywhere™ mobile RDC solution also complements the app, providing an easy way for all financial institutions to provide added consumer convenience. Andiamo's financial aggregation platform is powered through ProfitStars' partnership with [Banno](#).

Greg Adelson, group president of iPay Solutions, said, "Today's mobile and online society is driven by convenience and a desire for real-time fulfillment at the click of a button, or swipe of a finger. The launch of iPay OneClick and Andiamo clearly demonstrates our dedication to helping banks and credit unions meet those financial services expectations. Our industry is creating groundbreaking tools that enable consumers to move, save and spend money in an educated, convenient and empowered manner. The iPay Solutions and ProfitStars team is proud to be a leader in these efforts."
